Libbey professional
foodservice collection
2025 digital edition

Our craft is guided by yours

Libbey knows how much it takes to transform a vision into success – because we've been doing it for over 200 years. Since 1818, it's been our mission to empower the makers of drinks, the makers of meals and the makers of memories with our thoughtfully curated tabletop collection.

Inspired by latest trends and styles, our product selection was crafted to tell your story with innovative designs and attention to detail that celebrate your love for great food and drink.

With unmatched style and durability, Libbey's glassware, dinnerware and flatware can help you deliver dazzling experiences and bring your vision to stunning life.

Shop by style

From the neighborhood diner to Michelin-starred establishments and every bar, restaurant, hotel and hospital in between, Libbey is here to serve every type of business, budget and creative vision.

We've sorted our products into two distinct collections to help you shop by style and find the products that best suit your unique needs.

Classics

Classics by Libbey brings you the foundational pieces you need to make your legacy a lasting one. This collection of tried-and-true basics is a culinary canvas ready for your artistic flair.

Storytellers

A collection that plays with convention, Storytellers is an extension of your creative vision, carefully curated to foster ambiance and envelop the senses. If we eat first with our eyes, Storytellers is a feast – brought to the table in a riot of bold color, inventive design and innovative features.

You can use these collections as a tool to mix, match and build your next tabletop. Scan the QR code to learn more!

Dinnerware

Classic, investment-quality dinnerware and serveware blends timeless style with enduring performance. When it comes to fine dining, there should be no compromise.

Every detail matters

Each product is listed with key design features, defined below, that can enhance the durability of your dinnerware.

Fully Vitrified: Products are fired at temperatures greater than 2300°F to achieve a stronger and harder material that minimizes absorption of moisture, odor and bacteria.

Polished Foot: Smooth foot helps to reduce plate-to-plate surface scratching.

Highly Polished Foot: Achieves a greater degree of scratch resistance.

Glazed Foot: The highest level of durability, ensuring virtually no plate-to-plate surface scratching.

A dark, moody photograph of a dining table. In the foreground, a white plate holds several oysters on the half shell, garnished with a green herb sauce. To the left, a small white bowl contains a yellow sauce, possibly melted butter or a dressing, with some herbs. A silver fork and knife are visible on the table. The background shows more of the table setting, including a glass of wine. The overall atmosphere is sophisticated and elegant.

LUXURY LIVES IN THE EXPERIENCE.

And no one does luxury
like Reserve by Libbey®.

For the mavericks who are making their mark and the innovators who are anything but ordinary, Reserve by Libbey is luxury made to last.

Cast Iron Care and Handling

- Do not heat the cookware prior to filling.
- When using a gas burner stove, do not allow the gas flames to rise up along the side of the cookware.
- Use only silicone, nylon, or wooden utensils.
- Allow your cookware to cool to room temperature before cleaning. Hand wash only then dry thoroughly.

Wood Trivet Care and Handling

- Each carbonized cedar plank holds and protects the hot cast iron piece from the table and the end user.
- Food safe finish.
- Hand wash only; do not soak.

Serving Boards ★ MELAMINE

Melamine serving boards' authentic-looking faux wood, marble and slate styles create the earthy feel of natural materials – for a warm, contemporary look that elevates presentations and price points. Designed for the rigors of foodservice use, they're also lighter weight for easier carrying by your staff and dishwasher safe for lasting durability.

Create

infusions with a French press

Use your French press to impress your guests by thinking beyond coffee and tea service. It's also the perfect alternative for infusing broths, mocktails and cocktails with aromatic herbs and fruits and presenting them with flair. Elevate your specially crafted infusions by using the French press in non-traditional, trend-forward ways that keep your guests coming back for more.

Custom stamping guide

Custom Stamping/Engraving Guide – Flatware

All Libbey® Tableware flatware, serving pieces and steak knives can be customized to feature your name and/or logo on either the front or back, as permitted by the pattern design. Choose from many typeface designs or have us create stamps from your logo, crest or other artwork.

Most stamping jobs require at least two dies, and usually three, so that lettering will be in proper proportion to handle sizes. Up to five different die sizes may be required to stamp an extensive flatware service. Steak knives can be laser-engraved on either blade.

Custom stamping or laser engraving adds approximately 6-8 weeks to normal shipping requirements upon receipt of purchase order and approved artwork.

Please contact your Libbey® sales representative for more details on how to make your own unique “statement” by customizing your tabletop flatware.

Custom Engraving Guide – Holloware

Special monograms, crests or logos for reproduction by machine engraving on holloware require a customized stencil. The cost of engraving a logo, monogram or crest on a piece of holloware will vary depending upon the complexity of the design and will be determined by the engraver upon receipt of the artwork along with location and size instructions. A drawing will be prepared and sent for your approval showing size and position on the item. This drawing must be signed and returned before an engraved order will be processed.

All engraving must be on a surface area that lends ample space to complete the lettering. The final location is subject to the engraver's approval. Stock lettering styles shown above do not require a stencil charge unless the customer requires a larger size than is possible using the stock stencils.

All orders must include style of lettering, size of letters and position of each article where lettering is desired.

Orders for engraving machine lettering add approximately 6-8 weeks to normal shipping requirements. Examples of letter engraving for logos and stamping are illustrated above.

Silverplating and Tumbling Options*

Many of our flatware and holloware items can be silverplated on a made-to-order basis and subject to shipment approximately 6 weeks after receipt of the order at Libbey, provided there is sufficient stainless steel stock. Many items can also be tumbled to create a vintage look, subject to the same lead times. Customer orders for silverplated or tumbled merchandise are non-cancelable and non-returnable once an order has been processed.

Please contact your Libbey® sales representative for more details on silverplating items.

*Made to order, subject to lead times.

SPARKED

BY THOSE WHO CRAFT EXCEPTIONAL BEVERAGE EXPERIENCES

We developed our finest glassware collection with you in mind – the bartenders, mixologists and sommeliers who have a story to tell through beer, wine and spirits.

Our premium Reserve by Libbey glassware collection represents the pinnacle of Libbey craftsmanship, with superior, color-free optical purity, precise balance and enduring performance.

The beauty of Reserve is all in the details – stemware with exquisitely thin walls and flat feet, plus rocks and tumblers with thick bases and windowpane clarity. Our fine HD2 laser-cut rims – smoothed and perfected with a kiss of fire – enhance the drinking experience and offer visual appeal that guests will notice.

Together, this perfect marriage of form and function acts as a blank canvas for your creations, enveloping guests in a sensory experience that commands respect, attention – and a second pour.

The right
Glass
for what's trending in wine

The fundamentals of **PAIRING** the
RIGHT GLASS with the **RIGHT WINE**.

From sweeter varietals to Champagne cocktails, patrons continue to explore wine from all angles. And our glassware is designed to deliver every bit of the intense flavors and aromas of today's popular beverages.

Light-bodied red wines

No. 7515 shown

For these wines with fewer tannins and more subtle flavor, a large bowl and wide mouth allow the wine to breathe, enhancing delicate flavors.

Pair with Beaujolais, Pinot Noir, Sangiovese, Cabernet Franc

Full- and medium-bodied red wines

No. 7520 shown

These have the highest tannins resulting in complex flavors. A tall bowl directs the wine to the back of the palate for a richer tasting experience.

Pair with Bordeaux, Cabernet Sauvignon, Merlot, Malbec, Shiraz, Syrah

Light- and medium-bodied white wines

No. 7519 shown

Perfect for lighter, more delicate white wines with less alcohol. A smaller bowl concentrates subtle aromas and directs the wine to the tip of the tongue for better appreciation of sweeter flavors.

Pair with Riesling, Moscato, Pinot Grigio, Pinot Gris, Petit Chablis

Full-bodied white wines

No. 7553 shown

For heavier wines with a fuller body, a wide bowl enhances complex aromas while directing the wine to the back of the tongue, heightening flavor intensity.

Pair with Chardonnay, Sauvignon Blanc, Gewürtztraminer, White Zinfandel

Champagne and sparkling wines

No. 7500 shown

A tall, narrow glass maintains flavor concentration and displays effervescence, enhancing presentation.

Pair with Champagne, Prosecco, Lambrusco

Dessert wines

No. 7531 shown

A smaller glass enables proper portioning of these higher alcohol wines. A rounded bowl directs the wine to the back of the mouth, perfecting the sweetness.

Pair with ice wine, Sauternes, Moscato

Maximize

your space from storage to showpiece

Rising rents, shrinking spaces – nowadays, it's all the more important to make the most of every square foot of your venue. That's why Libbey® provides several stackable glassware options that help you get the most value from your footprint.

These innovative, space-saving designs ensure glasses look neat and uniform when stacked, so when they're not in use they can transform into a part of your venue's décor. They also help ensure more durable stacking that doesn't risk damaging the glassware, standing up to rigorous daily foodservice use and bussing.

Spirited returns on Trending cocktails

Signature drinks demand signature glasses. Using the right glass to showcase all your craft spirits or exclusive recipes creates the most memorable impression possible in taste, appearance and perceived value.

Create buzz around your cocktail menu by elevating presentations that command premium price. Big-reaction preparations, glamorous cocktail displays and locally crafted vibes — Libbey® has it all right here for you.

Unique designs inspire your creativity, reflect trend insights and celebrate your bottom line.

From standard rocks to luxury stemware, Libbey offers a comprehensive selection of cocktail glassware to set your beverage program apart.

The right
Glass
for what's trending in spirits

The **BASICS** on traditional
glassware for **SPIRITS**.

Today, patrons are seeking creations by rock star mixologists – with showmanship, interaction and education that draws them to the experience. The right glassware can set the stage for dramatic and engaging presentations.

Spirits served neat

No. 1009413 shown

A rounded design with heavy base is perfect for swirling “neat” drinks – unmixed spirits served at room temperature – to open up the flavors. The glass narrows at the top to concentrate and enhance the complex aromas.

Spirits served on the rocks

No. 15481 shown

The heavy weight and wide top are perfect for serving the finest spirits on the rocks, the large capacity allowing ample room for ice.

Brandy/Cognac standard

No. 3709 shown

A wide bowl creates surface area to help evaporate the liquor and enhance flavor. The narrow top concentrates aromas, and the rounded bottom is ideal for cupping with your hand to warm the brandy.

Martini standard

No. 7512 shown

A very wide bowl allows for maximum aromatics (especially the juniper and botanicals in a gin martini). The glass can be held by the stem to prevent warming, and the cone shape keeps ingredients from separating.

Margarita standard

No. 8439 shown

A Mexican cocktail made from tequila, orange liqueur and lime juice, margaritas are often rimmed with salt. The stem helps prevent warming the drink, and the very wide top enables an optimal salt-to-drink ratio.

Liqueur standard

No. 3826 shown

The small capacity (1-3 oz.) and conical shape is made for serving small amounts of sweet distilled spirits flavored with fruit, herbs, flowers, nuts or spices.

Highball or Collins

No. 2518 shown

This family of cocktails is made with a base spirit and a non-alcoholic carbonated mixer served with ice, requiring a tall glass for proper proportioning of ingredients.

Specialty glassware

No. 3617 shown

Whether it's a signature mojito, frozen cocktail or premium Long Island Iced Tea, specialty glassware is designed to create a powerful presentation of the finest signature cocktails.

Brewing up Masterful presentations

Tap into what makes you stand out from the crowd. Deliver the full-bodied flavors and authentic presentations the craft community craves. One key ingredient is required: differentiation.

Having the right vessel for the right beer is good for business and improves each beer’s taste, aroma and aesthetic – enhancing perceived value and customer satisfaction while driving a strong profit per serving.

The right Glass

for what's trending in beer

The fundamentals of PAIRING the
RIGHT GLASS with the RIGHT BEER.

The craft beer culture continues to drive the demand for diverse selection at the bar. Offer your guests the complete experience by presenting beer and beer cocktails in just the right glass.

Pilsners

No. 527 shown

Perfect for serving classic pilsners and other pale lagers, Pilsner glasses showcase a beer's color, clarity and carbonation. The conical shape helps maintain the beer's head, while the narrow design allows the aromas to reach your nose.

Giant beers

No. 1611 shown

Libbey's Giant Beer glasses have a tall stature, providing an exceptionally pleasing presentation for wheat ales and pale lagers. Designed for draft beer service, these glasses feature a rounded top that holds a generous head of foam.

Pub Glasses

No. 14806 shown

Pub glasses offer the perfect presentation of classic ales, such as IPA, pale ale, brown ale or stout. Featuring a wide mouth to support the frothy head, Pub glasses offer a traditional yet brilliant beer presentation.

Tulip stems

No. 920284 shown

Ideal for presenting lambic and saison, the tulip shape also is very well-suited for specialty fruit beers.

Stemware

No. 3915 shown

These upscale yet robust glasses elevate your presentation of ales and lagers.

Belgian

No. 3808 shown

The rounded bowl of Libbey's Grand Service and Belgian Beer glasses allows for subtle warming of the beer via heat transfer from the hand, while the inward-tapering top captures aromas, enhancing the tasting experience.

Steins and Mugs

No. 5262 shown

Very large and durable, mugs are ideal for proper serving of Oktoberfest and other dark German lagers.

Classic styles with a fresh Twist

Classic retro drink styles are again in vogue, along with heightened expectations for a premium cocktail experience. This blossoming cocktail culture has trained guests to want better drinks and an artful performance during their preparation - and they're willing to pay more for both.

The real twist? Many of these throwback drinks are great for serving in a tumbler rather than a traditional cocktail glass. Nostalgic "tall" cocktails and other mixed drinks that feature nuanced, flavorful, low-proof experimentations work great in taller cooler-sized tumblers, and shorter sizes are ideal for smaller super-premium pours.

Stackable Wake drinkware features a unique organic texture that accentuates creative drink presentations while improving grip and hiding fingerprints and any scratches that may occur.

Year after year, Infinium® performs beautifully

All Infinium products are engineered to maintain their glass-like brilliance even after extensive usage – ideal for demanding outdoor and high-volume environments.

INDUSTRY-LEADING RESISTANCE

resists virtually all stains, odors and tainting of beverage flavor

DISHWASHER DURABLE

maintains "like new" appearance even after hundreds of cycles

TEMPERATURE RESILIENCE

withstands extreme temperatures from boiling to freezing

Prolonged exposure to sunscreens at elevated temperatures can cause a cloudy layer to form on the surface of the plasticware. Citrus drinks not recommended as high acidity may damage the product. Dishwasher safe; not recommended for use in microwave.

Make a statement with custom decorating

One goal of food and beverage presentation is to make a lasting impression – to stand out in your customers' minds. With custom decorating, you can separate yourself from the competition and make an impression that lasts all the way to your customers' homes.

We'll fire your name and logo onto your glassware or dinnerware, creating a permanent visual impression that refuses to scratch, chip or wash off. It's an inexpensive way to add variety and spark to your beverage service, and it becomes a memorable, cost-effective advertising vehicle when used in "Keep the Glass" promotions.

How custom decorating works

Simply select up to eight colors from the thousands available in our color palette. Provide us with the name and/or logo you want to appear, and we take it from there. We'll design and produce the final artwork and apply the approved design to your exact specifications.

Ask your Libbey® sales representative about building your brand with custom decorating.

The Libbey difference

Most customers have the same question when purchasing glassware. Will it hold up? Leveraging 200 years of glassmaking expertise and innovation, Libbey® offers exclusive technology for enhancing glassware performance.

LIBBEY®
▲ **FINEDGE®**

Libbey's precision manufacturing produces a rim with a minimum bead that is more resistant to unsightly chipping without sacrificing its subtle beauty.

LIBBEY®
★ **HEAT TREATED**

A special heating and rapid cooling process strengthens the upper portion of the glass, increasing resistance to thermal and mechanical shock.

LIBBEY®
+ **DuraTuff®**

The special thermal after-process for "press" tumblers and stemware strengthens the upper portion of the glass, the area most vulnerable to breakage. It results in remarkably durable glassware with prolonged service life.

LIBBEY®
X **Sheer Rim™**
D.T.E.

A rare combination of elegance and affordability to upgrade beverage service with enhanced service life. This glassware features a beadless edge that is cracked-off then polished to produce a fine, durable edge.

Glassware Guarantees

● SAFEDGE® RIM GUARANTEE

For over 85 years, Libbey's proven commitment to quality has been backed by our well-known guarantee, "a new glass if the rim of a Safedge® glass

chips." If the rim of any glass covered by the Safedge® guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased. Of course, this guarantee does not cover breakage.

■ SAFEDGE® RIM AND FOOT GUARANTEE

If the rim or foot of any one-piece stemware item chips, Libbey guarantees to replace or refund the price of the glass when it is returned to the

dealer/distributor from whom it was originally purchased.

Hand Blown. Manufactured by hand, giving the glass uniquely individual characteristics. The capacities are noted as minimum-ounce capacities and could vary upward considerably. They should not be used as a standard of measure.

✕ SHEER RIM™/D.T.E. GUARANTEE

Libbey's Sheer Rim/D.T.E. (DuraTemp Edge) stemware and tumblers feature a beadless edge that is first cracked off then polished to produce a fine, yet durable edge.

This creates a combination of elegance and affordability in glassware for operators looking to upgrade their beverage service while still maintaining longer service life. Sheer Rim/D.T.E. tumblers and stemware are guaranteed against chippage of the rim.

Lined versions of items have the same dimensions as unlined glass.

The individual product images reproduced throughout this catalog are shown at approximately 25% actual size.

Suffix Identifications

Letter suffix "B" means Cobalt

Letter suffix "HT" means glass is Heat Treated

Letter suffix "CD" means glass has Finedge®

Letter suffix "SR" means glass has Sheer Rim/D.T.E. (DuraTemp Edge)

Glassware capacities are stated in U.S. ounces and are approximate and should not be used as a standard of measure. All fluid capacities are figured to overflow, except for those items decorated with a stated capacity line. Our capacity specifications allow for a tolerance of plus or minus 5%.

Example: A 12 oz. rocks glass could range in over-flow capacity from a minimum of 11.4 ounces to a maximum of 12.6 ounces. For more information regarding product specifications, contact your Libbey sales representative.

Care and Handling

Recommendations for your foodservice establishment

You've selected your premium glassware, Reserve by Libbey®, to enhance both your customers' experiences and your bottom line.

Just as you invest in creating signature drinks and serving top-shelf spirits and wines, invest in your exquisite glassware's care to ensure its optimal performance.

HD2 RIM AND FOOT LIFETIME GUARANTEE

If the rim or foot of any stemware item chips, Libbey® guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

HD2 RIM LIFETIME GUARANTEE

If the rim of any tumbler item chips, Libbey guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased.

TRAINING YOUR STAFF

Empower your staff to handle your fine Reserve by Libbey® glassware carefully and safely. Extend the life of your glass and reduce the potential for injury with these tips:

- Always take glasses to the table by placing them on a tray: **do not carry glasses upside down with the stems between the server's fingers.** Tray placement not only enhances presentation, but minimizes contact between the glasses.
- Always remove glasses from the table by placing them on a tray. Never place them in a bin. **Do not bouquet stemmed glasses or place flatware in glasses** to speed clearing.
- **Do not stack** glasses when storing.
- When serving iced beverages, always use a scoop – **never scoop ice with the glass.**
- Remove ice and allow the glass to reach room temperature before washing to prevent thermal shock.

CLEANING IN A COMMERCIAL DISHWASHER

Reserve by Libbey® is not only elegant, but durable enough for dishwasher care. Minimize spotting, etching and damage by using the following suggestions:

- Select a proper glass rack to suit the glass height and bowl/foot diameter; **avoid contact between individual glasses.**
- Choose a gentle, phosphate-free detergent to minimize spotting.
- Use a commercial-grade dishwasher that filters water by reverse osmosis or de-ionization to minimize mineral deposits that cause spotting.
- **Follow your dishwasher care and maintenance manual.**

HAND-WASHING

If you choose to hand wash your Reserve by Libbey® glassware, ensure a sparkling presentation by following these recommendations for hand-washing care:

- **Hold glass by the stem near the base of the bowl, not the foot.**
- Use a handled brush to clean inside the bowl.
- Choose a gentle, phosphate-free detergent.
- Rinse with water filtered by reverse osmosis or de-ionization to minimize spotting.
- When using a behind-the-bar system, follow the manufacturer's instructions.

DRYING AND POLISHING

Present glass that shines! Follow these select methods for an optimal customer experience and an enduring glass life:

- **Don't put your hand inside the bowl** of a glass when drying or polishing.
- When drying, hold the glass by its stem near the base of the bowl, not by the foot.
- With a microfiber or lint-free cloth, dry the inside of the bowl. Then dry the sides and stem, working your way to the bottom. Finish patting the glass dry at the bottom of the foot.
- If possible, dry glass immediately after wash/rinse to minimize the need to polish.
- When polishing, use the same grip on the glass as when drying. Wrap a slightly moist cloth around a handled brush and rotate the brush around the inside of the bowl. Do not torque/twist the glass; hold it steady as the brush is in motion.

Dinnerware attributes and warranties

Every Detail Matters

Below each pattern name, you will find each product is listed with key design features, defined below, that can enhance the durability of your dinnerware.

Fully Vitrified: Products are fired at temperatures greater than 2300°F to achieve a stronger and harder material that minimizes absorption of moisture, odor and bacteria.

Polished Foot: Smooth foot helps to reduce plate-to-plate surface scratching.

Highly Polished Foot: Achieves a greater degree of scratch resistance.

Glazed Foot: The highest level of durability, ensuring virtually no plate-to-plate surface scratching.
