HOW TO MEASURE

Our garments are cut to accommodate active working conditions. Here's how to get the correct size and ensure a comfortable fit.

LADIES

Be sure to measure your body. Do not measure over shirts or slacks. Hold tape measure close but not tight against the body.

BUST

With arms at your sides, measure across the fullest part of the bust, under your arms, keeping tape parallel to the floor.

WAIST

Measure at your natural waistline at its smallest part.

LOW HIP

Measure the widest point of your hip, approximately 8" below your natural waist.

MEN

For men, as a general rule, the number of inches measured will equal your size, when measured correctly. Be sure to measure your body. Do not measure over shirts or slacks.

SLEEVE LENGTH

Bend your elbow 90 degrees and place hand on your hip. Have someone measure you from the center back of your neck, across your shoulder to your elbow, then down to your wrist bone. The total length in inches is your sleeve length.

CHEST

With arms at your sides, measure across the fullest part of the chest, under your arms, keeping tape parallel to the floor.

NECK

Measure around base of neck (lowest part). Number of inches equals neck size.

WAIST

Measure your natural waist at the height you normally wear your pants. Keep the tape measure firm but not tight.

INSEAM

Measure the inside of your leg from crotch down to the top of the shoe. Or, measure a similar style of pants that fit well. Measure from the crotch seam to the hem.

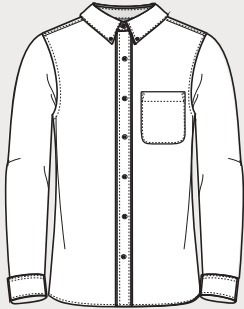

LOW HIP

Measure the widest point of your hip, approximately 8" below your natural waist.

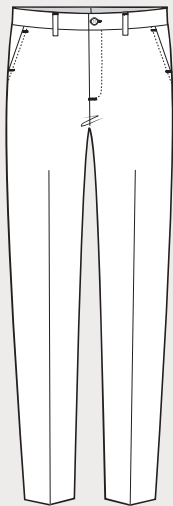

FIND YOUR FIT

Our garments are cut to three standard fits for more uniform sizing. See individual product descriptions.
