The Cucina Collection ranges from 8 oz to 9 qt capacity in four shapes—round, oval, square, rectangle. Finishes include the original Cucina finish, Hammered, Freeway, Wave, Rain, Bellissimo, and our two newest patterns, Roma and Diamond. Most popular for its Chafing Dish service style, all Cucina Collection vessels have a matching food pan. Constructed of 18/8 stainless steel, these pieces have 3-ply bases for use on induction, radiant heat, steam tables or with canned fuel.

Light dances across the surface, enhancing buffet displays with subtle movement and dimension. Ideal for spaces seeking warmth and character, this pattern offers a timeless aesthetic that complements both rustic and upscale environments.

Keep your Cucina and Country French vessels looking like new longer by using Bon Chef's food pans. Let the food pans take the beating going in and out of the kitchen and wash cycles.

the
cold wave
collection

Perfect for cold service without refrigeration.

Our Cold Wave bowls feature a triple-wall design. An outer air chamber prevents the bowl from sweating while keeping the inner chamber gel frozen. Pre-freezing these bowls will keep your food cold for 8 hours at ambient temperature. In our test results, a bowl was put in the freezer until gel was frozen. 35° F potato salad was placed in the bowl and stirred every 30 minutes. After 8 hours the potato salad was at 38° F.

artisanal sandstone

Designed to balance simplicity with character, our Artisanal Sandstone Collection introduces a soft, textural element to buffet and tabletop presentations. The ceramic-inspired finish and gently sculpted shapes evoke an organic sensibility, creating a neutral canvas for delicate, artistic plating. These aluminum pieces are unbreakable, with coating options in over 25 colors (see page 646 for Powercoat swatches). When coated, these pieces are for cold/ambient service only.

flatware finishes

a finish for every style

Bon Chef offers an extensive range of flatware finishes, from classic polished and brushed stainless steel to a rustic, chic tumbled texture, vibrant PVD-coated colors, and luxurious silver plating.

This diverse selection allows foodservice and hospitality professionals to find the perfect flatware to match any dining aesthetic, from casual to upscale. Whether you're looking for durability, bold statement pieces, or timeless elegance, our variety of finishes ensures that every table setting makes a lasting impression.

pvd-coated finishes

vibrant, durable, and stylish

Bon Chef’s flatware is available in a range of stunning PVD color finishes, including polished or matte rose gold, gold, black, and even a bold rainbow effect.

PVD (Physical Vapor Deposition) coating enhances both the beauty and durability of flatware, making it an excellent choice for dining establishments that want to make a lasting impression.

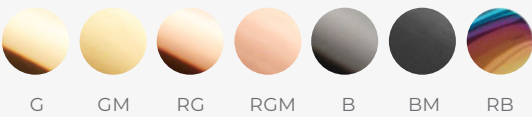

Unlike traditional plating, PVD creates a hard, scratch-resistant surface that maintains its color and sheen through constant use. Whether you’re aiming for a simple, modern aesthetic or a playful, eye-catching presentation, our PVD finishes offer a versatile and long-lasting solution for any tabletop setting.

PVD-COATED FLATWARE – ORDERING INFORMATION

To order flatware in any of the available pvd-coated finishes:

Simply add the corresponding initials of the desired swatch (see below for swatch initials) to the end of the desired product’s item number. For example: instead of S4000, use S4000-G for gold pvd, or S4000-GM for gold matte pvd.

PVD not offered for all flatware collections, see details on collection pages.

stainless steel finishes

iconic elegance

Bon Chef’s stainless steel flatware is available in three distinct finishes to suit any dining ambiance. The high-shine mirror finish delivers a classic, refined look that enhances formal settings, while the brushed finish offers a sleek, modern appeal with a subtle texture that resists fingerprints.

For a more vintage-inspired or rustic charm, our tumbled finish creates an antique effect, adding character to any table. Each finish is designed to withstand the demands of food service while elevating the overall dining experience, ensuring both durability and style in every setting.

STAINLESS STEEL FLATWARE – ORDERING INFORMATION

To order polished stainless steel, use the product’s item number only.
To order brushed stainless steel, change the first 0 in the item number to a 1. For example: instead of S4001, use S4101.
To order tumbled stainless steel, add a -T to the end of the item number. For example: instead of S4001, use S4001-T.

silver plating

ultimate luxury

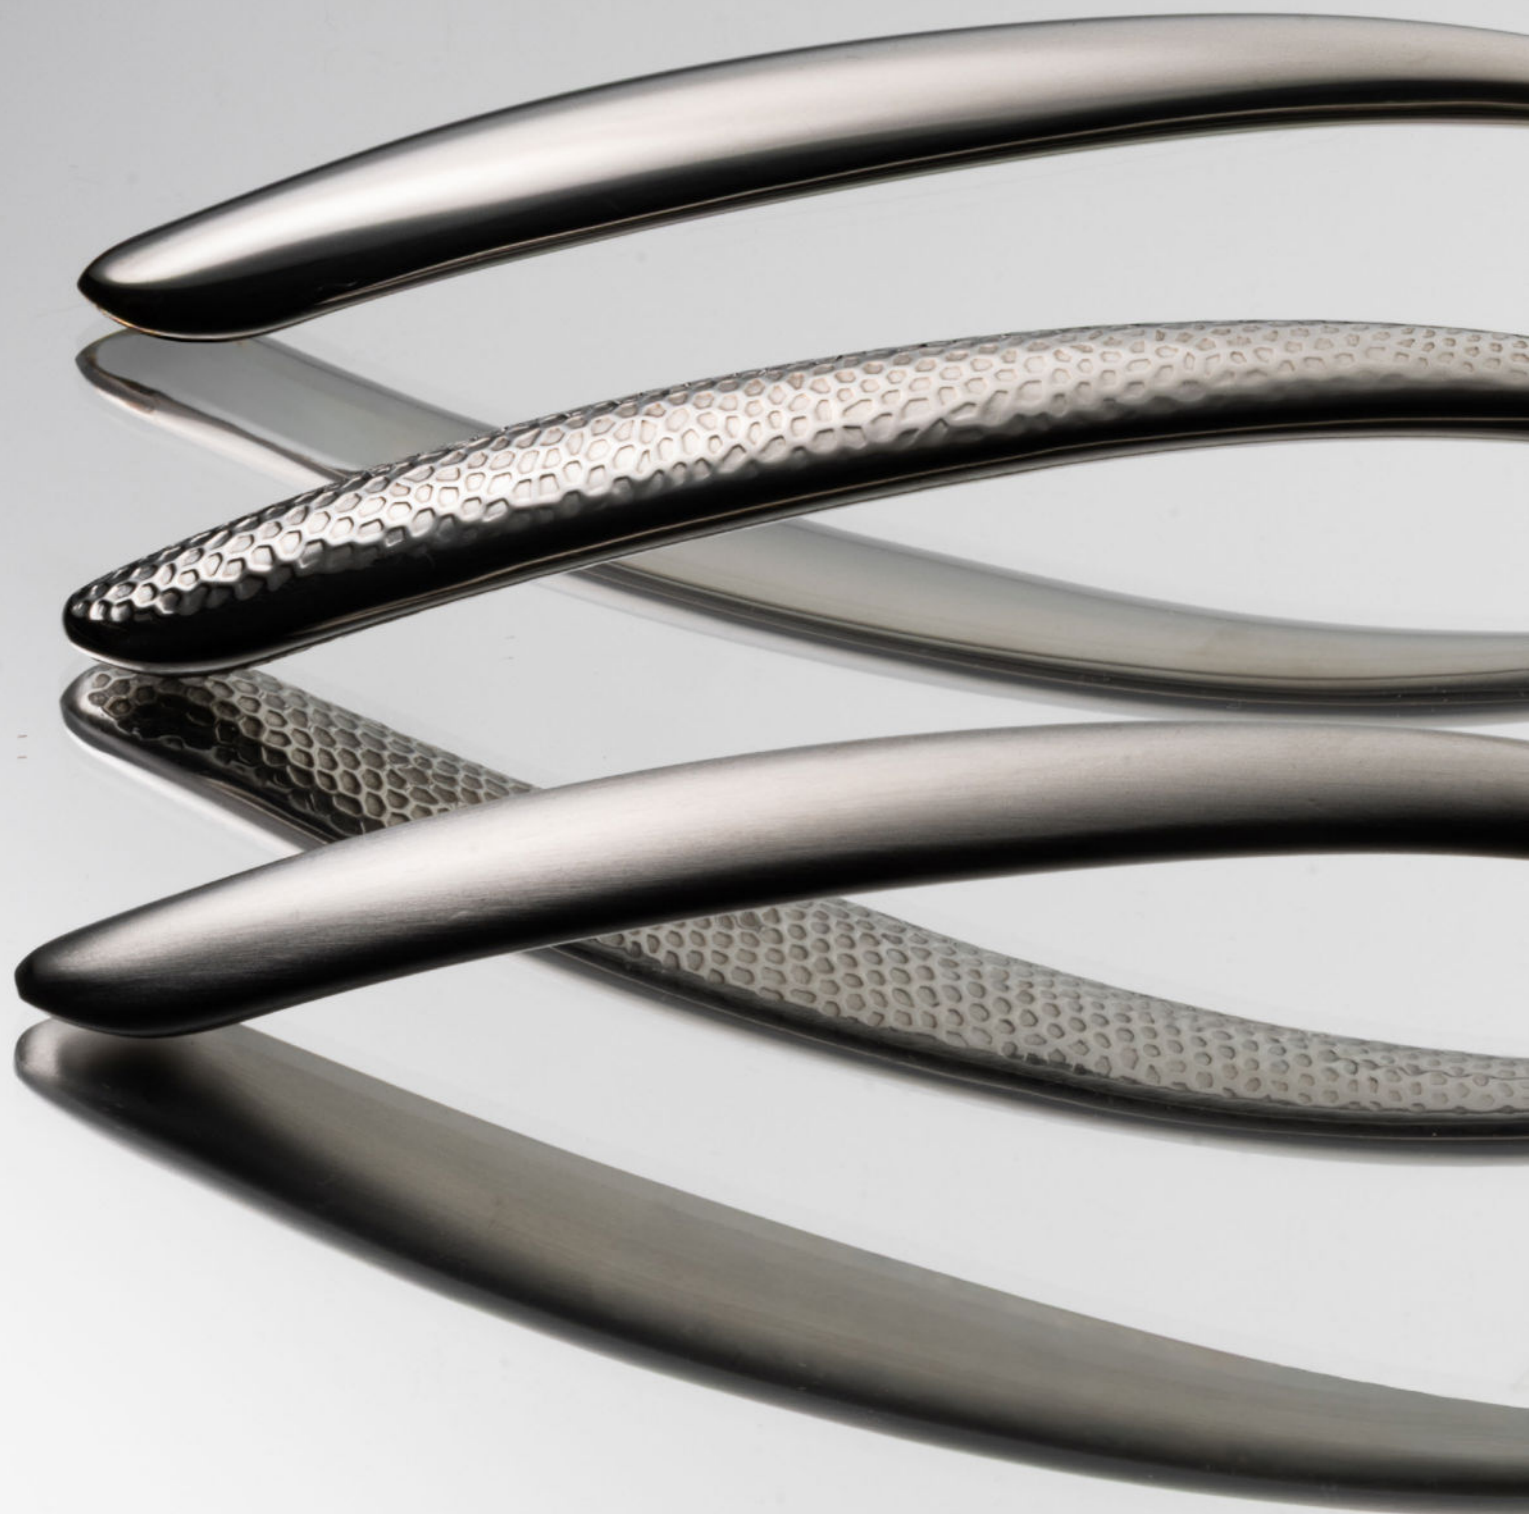

For those seeking the pinnacle of sophistication, Bon Chef offers stunning silver-plated flatware, perfect for high-end restaurants, luxury hotels, prestigious events, and more.

Silver plating adds an exquisite brilliance and timeless appeal that enhances the dining experience. While more of an investment than standard stainless steel options, silver-plated flatware is a statement of elegance and refinement, ideal for establishments that prioritize opulence and tradition.

With proper care, it maintains its luster and prestige, making it a worthy addition to any luxury dining environment.

SILVER PLATED FLATWARE – ORDERING INFORMATION

All of our flatware patterns are available in a silver-plated finish upon request. Since this is a custom option, we ask that you contact our customer service team for personalized assistance with your order. Please reach out to us at info@bonchef.com, and we'll be happy to help!

our
millwork
designs

Our on-site millwork studio is run by local artisans who find meaning in making. What we create is built with integrity, inspired by traditional woodworking methods and assembled with precise craftsmanship.

Bon Chef looks forward to the opportunity of manufacturing the buffets, bars, back-bars, nesting tables, and other millwork. Having our own factory on-site provides us with the extraordinary ability to customize and create quality furnishings.

We pride ourselves on responsibly sourcing only North American lumber. We are striving to reduce our carbon footprint as much as possible.
